*Market Day has been discontinued. New fundraiser information will be sent out soon.*

**Welcome back!**

**Thank you** to all the volunteers who helped get our school year off to a great start!

We are looking forward to a great school year!

*New Spirit Wear is now on sale. Order forms can be picked up in the front office.*

We want to inform you of a couple of changes that have been implemented this year. Due to the number of allergies we are asking that no treats be brought into the school for birthdays or parties. If you would like to do something special for your child or classroom, we will welcome non edible treats to be passed out to the entire class, for example: pencils, erasers, etc. Or you could donate a book to the classroom library.

Students love when you visit at lunchtime! During these special visits with your child, we ask that you **do not** invite other children to eat with you.

Thanks so much for your cooperation!

## Textbook Rental

Textbook Rental was due today Friday, Aug. 7th. If you have not paid your textbook rental please do so as soon as possible. You may pay over the phone with credit card by calling the office at 862-2065. Payment can also be paid by sending in cash or check payable to Adams Elementary School. If you would like to set up a payment plan please contact the office. **Any textbook rental not paid or arrangements for payment set up by October 2nd will be sent to collections.**

**Nurses Notes:**

Welcome Back!

I have received back most of the clinic consents to treat and health concerns forms, and I appreciate your time and effort with those so much! if you have not returned your student's form, please do so next week. If I do not receive a signed clinic consent form, I will call you if a student is sent to clinic, but I won't be able to evaluate or provide any care (except emergent). If you have any questions about the consent, please feel free to call and discuss. I promise to listen with understanding, and I will respect whatever decision you make regarding your child visiting the clinic.

The medication policy states that students in elementary school are NOT allowed to carry medication to or from school. This means that parents need to bring the medication to school and sign the permission to administer in the clinic. Prescription medications need to have the prescription from the doctor still attached when medication is brought to school. If the medication needs to come home, an adult will need to come pick it up. If your student needs emergency medication at school for asthma, seizures, or food allergies, please be sure they are brought to school as soon as possible for their safety.

At the beginning of each year, I review all the health concerns forms that you submit to the clinic. If your child has a medically diagnosed food allergy (or you suspect they need one diagnosed), seizure disorder, or asthma, we have an action plan that your doctor completes yearly so that we can take the best care of your student while at school. Please contact me if you need a copy of one of these forms for your child, or I can fax a copy to your doctor if preferred. If your child develops a health condition later in the year, please update me as needed.

I enjoyed meeting many new parents and reconnecting with previous parents as they stopped by to update me to health needs or bring medication. I understand that you are entrusting your greatest gift to me during the school day- your kids, so I treat them with the care and respect they deserve. Thanks again for all your support in keeping them healthy to learn!
